KANSAS K-12 SCIENCE STANDARDS
MIDDLE SCHOOL LEVEL – GRADES 6-8**

*Din Seaver, Curriculum Developer and Project Manager, Lab-Aids
Mark Koker, Ph D, Director of Curriculum & Professional Development, Lab-Aids*

This document is intended to show how the SEPUP 3rd edition materials align with the 2013 *Kansas College and Career Readiness Standards for Science (KCCRSS)*.¹

ABOUT OUR PROGRAMS

Lab-Aids has maintained its home offices and operations in Ronkonkoma, NY, since 1963. We publish over 200 kits and core curriculum programs to support science teaching and learning, grades 6-12. All core curricula support an inquiry-driven pedagogy, with support for literacy skill development and with assessment programs that clearly show what students know and are able to do as a result of program use. All programs have extensive support for technology and feature comprehensive teacher support. For more information please visit www.lab-aids.com and navigate to the program of interest.

SEPUP

Materials from the Science Education for Public Understanding Program (SEPUP) are developed at the Lawrence Hall of Science, at the University of California, Berkeley, and distributed nationally by LAB-AIDS, Inc. Since 1987, development of SEPUP materials has been supported by grants from the National Science Foundation and other public and private sources. SEPUP programs include student books, equipment kits, teacher materials, and online digital content, and are available as full year courses, or separately, as units, each taking 3-8 weeks to complete, as listed below. The following tables that correlate SEPUP 3e NGSS Units to the 2013 6-8 Kansas Science Standards are presented in a Disciplinary Core Idea arrangement.

Middle Level, Grades 6-8

Physical Sciences	Life Sciences	Earth and Space Sciences
Chemistry of Materials	Ecology	Land, Water, and Human Interactions
Chemical Reactions	Body Systems	Geological Processes
Energy	From Cells to Organisms	Earth’s Resources
Force and Motion	Reproduction	Weather and Climate
Fields and Interactions	Evolution	Solar System and Beyond
Waves	Biomedical Engineering
