

MORE THAN A TEXTBOOK — A FULLY INTEGRATED LEARNING SYSTEM.

Lab-Aids programs include high-quality equipment for each activity. This includes innovative lab-ware to be used throughout the year, specific solutions and materials for unique labs, as well as items needed for card sorts, modeling, role-plays, and projects.

All core curriculum programs include equipment for five consecutive classes of 32 students working in groups of fours, pairs, or individually; whatever is best for keeping all hands busy.

COMPLETE SEPUP CURRICULUM EQUIPMENT PACKAGES INCLUDE:

1. Printed and online student text available separately to customize for each classroom size.
2. All the equipment needed to run every lesson. Students work in groups of four, as pairs, or individually depending on the activity.
3. Valuable online teacher resources include ongoing professional development, tools to differentiate instruction, literacy strategies and assessment.
4. Specially designed Signature Items are unique to the SEPUP program.
5. Plastic tray inserts help keep materials organized. This feature makes it easy to identify missing components and greatly reduces the time it takes to distribute, collect and store materials.
6. Heavy-duty locking wheels for easy movement from storage room to classroom.

EVERYTHING YOU NEED - ALL IN ONE PLACE.
