This document is intended to show how the SEPUP *Issues and Science, 3rd Edition Redesigned for the NGSS* curriculum materials align with the Iowa Core Science Standards.

ABOUT LAB-AIDS

Lab-Aids has maintained its home offices and operations in Ronkonkoma, NY, since 1963. We publish over 200 kits and core curriculum programs to support science teaching and learning, grades 6-12. All core curricula support an inquiry-driven pedagogy, with support for literacy skill development and with assessment programs that clearly show what students know and are able to do as a result of program use. All programs have extensive support for technology and feature comprehensive teacher support. For more information, please visit www.lab-aids.com and navigate to the program of interest.

ABOUT SEPUP

Materials from the Science Education for Public Understanding Program (SEPUP) are developed at the Lawrence Hall of Science, at the University of California, Berkeley, and distributed nationally by Lab-Aids, Inc. Since 1987, development of SEPUP materials has been supported by grants from the National Science Foundation and other public and private sources. SEPUP programs include print student books and teacher materials, equipment kits, and online student and teacher portal access to all print content plus additional digital resources.

A suggested sequence of units for grades 6-8 in Iowa from *Issues and Science, 3rd Edition Redesigned for the NGSS* is shown below. All units can be moved, if needed. Through the 17 units, all Iowa Core Science Standards are covered.

Sixth Grade	Seventh Grade	Eighth Grade
Body Systems	Reproduction	Land, Water, and Human Interactions
From Cells to Organisms	Ecology	Weather and Climate
Geological Processes	Earth's Resources	Evolution
Chemistry of Materials	Solar System and Beyond	Force and Motion
Chemical Reactions	Energy	Waves
Biomedical Engineering	Fields and Interactions
